Innovation and Technology 18 I 19

MORE DRIVING PLEASURE, LESS EMISSIONS.

BMW EfficientDynamics is a technology package that includes not only the drive, but rather the whole vehicle concept and intelligent energy management. Provided as standard in every BMW, a variety of innovative technologies contribute to continuously improving efficiency. Via engine efficiency measures, electrification, lightweight construction methods and optimised aerodynamics, BMW has managed to reduce the CO₂ emissions of its fleet significantly.

MORE DYNAMICS, LESS WEIGHT.

Lower weight with intelligent lightweight construction. Special consideration for every last detail intelligent lightweight construction means that the optimal material is found and implemented for each part of the vehicle. With extremely light high-tech materials such as aluminium and carbon fibre. BMW EfficientLightweight is pursuing the goal of minimising vehicle weight. That leads to even more dynamic performance. increased stability and heightened safety and comfort.

AUTOMATIC START/STOP

The Automatic Start/Stop function¹ switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam), which can reduce overall fuel consumption. When the driver presses down on the clutch (manual transmission) or takes their foot off the brake (Steptronic transmission), the engine automatically starts up again in a fraction of a second.

DRIVING EXPERIENCE CONTROL INCL. ECO PRO MODE

The Driving Experience Control lets the driver choose between the standard COMFORT mode, ECO PRO Mode which is geared towards efficiency, and SPORT mode which enables even more dynamic driving. ECO PRO mode adjusts the characteristics of the accelerator, Steptronic transmission, if present, and the heating/air conditioning settings to make the drive as fuelefficient as possible.

OPTIMUM SHIFT INDICATOR

The Optimum Shift Indicator¹ shows the most efficient gear for a given driving situation. In all BMW models, the display informs the driver of the current gear and gives shifting recommendations. This noticeably lowers fuel consumption through perfectly timed gearshifts, particular in urban environments and over long distances.

IN THE BMW 2 SERIES ACTIVE TOURER AND GRAN TOURER.

POWERTRAIN AND SUSPENSION.

THE ENGINE HIGHLIGHTS OF THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER

BMW 218i Active Tourer

BMW TwinPower Turbo 3-cylinder petrol engine with 100-103 kW (136-140 hp) and 220 Nm torque Acceleration 0-100 km/h: 9.3 s [9.3] s Top speed: 205 km/h [205] km/h Combined fuel consumption: 5.5-5.7 [5.1-5.3] I/100 km Combined CO₂ emissions: 125-130 [117-121] g/km

BMW 220d xDrive Gran Tourer

BMW TwinPower Turbo 4-cylinder diesel engine with 140 kW (190 hp) and 400 Nm torque Acceleration 0-100 km/h 5-seater | 7-seater: [7.8|8.0] s Top speed 5-seater | 7-seater: [218|218] km/h Combined fuel consumption 5-seater | 7-seater: [4.8-5.0|4.9-5.1] |/100 km Combined CO₂ emissions 5-seater | 7-seater: [126-131|128-133] g/km

The intelligent **BMW xDrive all-wheel drive system** smoothly and variably distributes drive power to the front and rear wheels for maximum traction, driving dynamics and safety in every driving situation. For even better agility, the electronically controlled power distribution for instance counterbalances oversteer or understeer on bends.

The **Performance Control** intervenes through engine control and controlled braking when turning, so that more power is distributed to the outer wheels and less to the inner wheels. This means that the vehicle practically turns itself, thus increasing driving safety and comfort.

The **Driving dynamics control systems** support the driver in all difficult driving situations. The ABS prevents the wheels from being blocked, ensuring the car can be steered even during emergency braking. The anti-skid system Dynamic Stability Control (DSC) counteracts loss of grip in the wheels, automatically braking individual wheels.

The optional Variable **sport steering**^{1,2} with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when driving more dynamically and reduces the effort needed to steer when parking and turning.

The **Adaptive suspension**^{1,2} combines driving dynamics and ride comfort with a high degree of safety. The driver has the option of preselecting the damper characteristics via the Driving Experience Control. Along with the standard COMFORT setting, SPORT mode is also available.

M Sport suspension^{1, 2} – which includes a chassis which is lowered by 10 millimetres – is characterised by an athletic suspension design. In addition to shorter bearing springs, it also encompasses tighter damper settings.

DRIVER ASSISTANCE.

The safety package **Driving Assistant**^{1,2,*} includes camera-based assistance systems, such as Lane Departure Warning, Approach control warning, High-beam assistant and Speed Limit Info. The Approach control warning and Person warning with light city braking function warns of collisions at speeds between 10 and 60 km/h, while the Lane Departure Warning causes the steering wheel to vibrate as a warning when the lane is unintentionally changed at 70 km/h or over.

Speed Limit Info including No-overtaking indicator^{1,*} detects current speed limits and no-overtaking zones and shows them on the Info Display in the instrument cluster and on the BMW Head-Up Display^{1,3,*}.

The Lane Departure Warning^{1,*} detects lane markings and alerts the driver before an unintentional lane change at speeds above around 70 km/h by means of vibrations in the steering wheel. If the indicator is activated, meaning that a change of lane is intended, no warning is given.

The **Driving Assistant Plus**^{1,2,*} equipment provides a clear improvement in safety and comfort. It includes the Approach control warning and Person warning with light city braking function, Lane Departure Warning, the High-beam assistant, the Speed Limit Info, camera-based Cruise control with Stop&Go function as well as the Traffic iam assistant.

The full-colour **BMW Head-Up Display**^{1,3,*} projects relevant driving information onto a panel in the driver's field of vision. which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info incl. no-overtaking indicator and telephone and entertainment lists, among other things are displayed, depending on the equipment.

The **Parking assistant**^{1,4,*} makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over steering, while you are responsible for selecting the correct gear, as well as pressing the accelerator and brake.

 $^{\rm 4}$ The driver is responsible for constantly monitoring the automated parking procedure in accordance with local road laws. Available as optional equipment. ³ The information in the BMW Head-Up Display is not fully visible when viewed through polarised sunglasses. The exact content shown will depend on the equipment options chosen. Further optional equipment is required for content to be displayed.

SAFETY.

■ Standard equipment □ Optional equipment

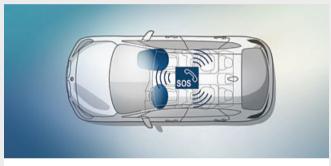

Innovation and Technology 20 I 21

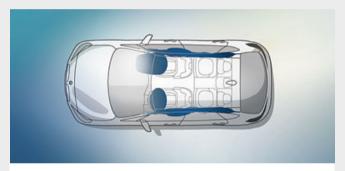

☐ The **Adaptive LED headlights*** include low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective Beam, cornering lights, daytime running lights and Adaptive headlights with variable light control for excellent illumination of the road ahead and better visibility in the dark.

■ Dynamic Stability Control (DSC) continuously assesses the vehicle's movements using various sensors and stabilises the car with engine and braking regulation when unstable driving conditions are detected. Auxiliary functions include braking readiness, brake drying by the braking system in wet conditions and the Hill-Start assistant.

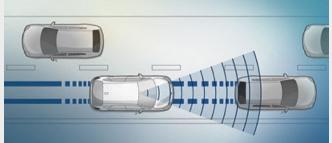

☐ The Intelligent Emergency Call* automatically establishes a connection with the nearest rescue coordination centre through the BMW call centre whenever needed - without the use of a mobile phone. It transmits information regarding the vehicle's current location and the severity of the accident. The Intelligent Emergency Call can also be triggered manually in case other road users require help, for example

■ The **head airbags** for the first and second seat row complete the vehicle's airbag equipment. With a protective sail that deflects flying shards, they create a highly effective head protection system for the window area that also protects the rear passengers in the event of a side collision.

☐ **Traffic jam assistant*** relieves you in monotonous traffic situations on the motorway: At speeds of up to 60 km/h, the system lets the car simply "glide along" with the other cars in dense traffic, making traffic jams less stressful. It automatically maintains the distance from the vehicle ahead and regulates the car's speed down to a standstill - as well as providing steering support.

Approach control warning with light city braking function^{2,*} warns of potentially critical situations to help prevent accidents. If there is a risk of collision with a vehicle moving or standing ahead, it provides a two-stage warning and, if necessary, pre-conditions the brakes for increased responsiveness. In case of an emergency, the system initiates braking, ensuring that the collision speed is significantly reduced.

The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your

CONNECTIVITY AND INFOTAINMENT.

BMW Connected Drive

So connected, you're free.

CONNECTED AT ALL TIMES.

Focused on the future – from the very beginning. By the 1990s, BMW had already made headway in connected mobility. Another milestone of the digital future was surpassed in 2004: vehicles with built-in SIM cards. Then came the first online functionality, Google Services and innovative display systems such as the BMW Head-Up Display. Throughout this process, the desires of the customer have always taken centre stage. In a first for a premium automobile manufacturer, BMW makes it possible to book and pay for services flexibly via the BMW ConnectedDrive Store, in the vehicle or on a computer at home. And with the introduction of the BMW smartphone app, the Open Mobility Cloud, Remote Software Upgrades and the BMW Intelligent Personal Assistant, BMW is taking the next steps into the future of mobility.

BMW CONNECTED DRIVE STORE.

BMW ConnectedDrive opens the gate to the digital world of BMW. Use vehicle apps such as news, weather, office or online search on the go and be well informed at all times. Via the ConnectedDrive Store or directly in your BMW, you can book additional digital services such as Connected Music or Concierge Service – anytime, anywhere, easily and flexibly.

IN TOUCH 24/7, WITH BMW CONNECTED DRIVE.

Are the doors of my car really locked, when should I leave my office to arrive in time for dinner at the fancy Italian restaurant and how will I find my way there? The BMW smartphone app can easily help you with all of these questions: it is your personal mobility assistant. It connects you directly with your car, giving you access before and during your trip to numerous functions, which make every drive simpler and more comfortable.

CONCIERGE SERVICE

Will it be sunny tomorrow in Rome? When is my flight and where is the best restaurant in the city? Concierge Services^{1,*} are there to help when you are travelling and can support you with any request at the touch of a button – individual, personal and fast. Wherever you are, whatever you need. The term is three years.

APPLE CAR PLAY® PREPARATION

Why go without the features of your iPhone in your BMW when you can continue operating it as usual? The preparation for Apple CarPlay^{®1,2,*} gives you remote access to telephony as well as apps like iMessage, WhatsApp, Tuneln, Spotify and Apple Music. You can also use the voice button on the steering wheel to access Siri, Apple's voice assistant.

IN THE BMW 2 SERIES ACTIVE TOURER AND GRAN TOURER.

COMFORT AND FUNCTIONALITY.

The **Comfort access system**¹ allows passengers to enter the car via the front doors and to open the tailgate without having to actively use the key. The key must simply be nearby, in the driver's trouser pocket for example. To unlock the doors, it is only necessary to touch the handles or the tailgate button.

Thanks to the **versatile adjustment options for the rear seats,** the rear and luggage compartment can be used even more flexibly. The backrests can be folded down in a 40:20:40 ratio, or they can be positioned at either of six angles. The seats can be moved individually by 130 millimetres^{1,*} in a 60:40 ratio.

The **third row of seats**^{1,3}, with two individually foldable and forward-facing seats, offer room for two additional passengers. To ensure good access, the second row of seats can be folded forwards with the Easy-Entry function.

The **Storage compartment package** offers additional storage options in the interior and luggage compartment. Among other things, it includes a centre armrest for the rear seat with two cupholders, and nets on the front-seat backrests. A double USB port in the rear centre console and a 12V socket in the luggage compartment offer additional connection options for electrical devices.

The **Electronic parking brake** is conveniently activated via a button. Thanks to this space-saving button, the centre console has more room available for other things.

The **Sun protection glazing for the rear window¹** and tinted rear side windows prevent the interior from heating up when exposed to direct sunlight. The darker glazing behind the B-pillars absorbs more sunlight. The tinted glazing does not hinder outward visibility, but it does protect the rear seats against prying eyes.

The **Luggage-compartment separating net¹** can be attached behind the rear seats to prevent objects falling forwards into the passenger area (during hard braking, for example). When the rear seats are folded down, it can also be attached behind the front seats.

The **electric seat adjustment¹** makes it particularly convenient and easy to adjust the driver and front passenger seats. The **memory function** enables drivers to save and retrieve their desired settings for the driver's seat and exterior mirrors at the push of a button.

Available as optional equipment.

² Apple CarPlay® compatibility and supported functions depend on the model year and the software installed on the iPhone®. When the Apple CarPlay® preparation is in use, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for any further processing of the data.

³ Only available for BMW 2 Series Gran Tourer.

^{*}The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your PMW performance.

■ The interior trim finishers in Oxide Silver dark matt with accent in Black high-gloss add to the modern aesthetic appeal of the cockpit, which is clearly directed towards the driver.

■ The standard seats in Cloth 'Grid' Anthracite combine a modern look with high seating comfort on every trip.

Selected base model equipment features:

- 16" light alloy wheels V-spoke style 471
- Halogen headlights
- ☐ Sport leather steering wheel
- Air conditioning
- Radio media with 6.5" LCD colour display and USB port
- Driving Experience Control incl. ECO PRO ☐ Seat adjustment for rear seats^{1,*}
- Seat backrest with 40:20:40 division
- Storage compartment package

■ 16" light alloy wheels V-spoke style 471* in Reflex Silver, wheel size 7J x 16, with 205/60 R16 tyres.

LUXURY LINE.

■ Standard equipment □ Optional equipment

Equipment 24 | 25

■ The interior is dominated by modern aesthetics, which at the same time expresses the sophisticated character of the Luxury Line: The standard seats are covered with leather 'Dakota' Mocha with perforations and raise comfort to a new level. They harmonise perfectly with the interior trim finishers in fine-wood trim 'Fineline' Stream and highlight trim finishers in Pearl Chrome for an unmistakably high-quality ambience.

☐ Sporty and elegant at the same time: The sport leather steering wheel with multifunction buttons integrates control elements into the horizontal steering wheel spokes for ideal accessibility.

■ 17" light alloy wheels Multispoke style 547, wheel size 7.5J x 17 with 205/55 R17 tyres.

Luxury Line exterior equipment:

- BMW kidney grille with twelve exclusively designed vertical slats with front sides in Chrome high-gloss
- Front bumper with specific design elements in Chrome high-gloss
- 17" light alloy wheels Multi-spoke style 547, other wheels available
- Side window surrounds and window recess finisher in
- Aluminium anodised, mirror base and mirror foot in Black matt ■ Rear bumper with specific design elements in Chrome high-gloss
- upholsteries available

Luxury Line interior equipment:

- ☐ Sport leather steering wheel inkl. multifunction buttons
- Car key with Chrome detailing

■ Door sill finishers in aluminium, front, with "BMW" lettering ■ Seats in Leather 'Dakota' Black with exclusive perforations, other

- Interior trim finishers in Fine-wood trim 'Fineline' Stream with accent in Pearl Chrome, alternatively Interior trim finishers in 'Fineline' Shore with accent in Pearl Chrome, other trims available
- Exclusive LED optical fibre in the door trim
- Dashboard and centre console with contrast stitching (to match upholstery colour)

Standard for BMW 2 Series Gran Tourer.

^{*}The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your

■ Standard equipment □ Optional equipment

☐ The sport leather steering wheel with multifunction buttons sets a sign in the interior that is just as sporty as the interior trim finishers in Aluminium, finely brushed lengthwise with accent in Pearl Chrome.

Sport Line exterior equipment:

- BMW kidney grille with vertical slats, with front sides in Black high-gloss
- Front bumper with specific design elements in Black high-gloss
- 17" light alloy wheels Double-spoke style 549; other wheels available

 Mirror caps in body colour, alternatively in Black
- Rear bumper with specific design elements in Black high-gloss

Sport Line interior equipment:

- Door sill finishers in aluminium, front, with "BMW" lettering
- Sport seats for driver and front passenger in Cloth/Sensatec combination Anthracite/accent Grey or accent Orange; other upholsteries available

- □ Sport leather steering wheel incl. multifunction
 □ Car key with Chrome detailing
 Interior trim finishers in Black high-gloss with accent in Pearl Chrome; other trims available
- Exclusive LED optical fibre in the door trims
- Dashboard and centre console with contrast stitching (to match upholstery colour)

■ Pure athletics on all seats: The sport seats in Cloth/Sensatec combination in Anthracite with orange accent provide a stable hold even in dynamic curves.

■ 17" light alloy wheels Double-spoke style 549, with runflat tyres, wheel size 7.5J x 17 with 205/55 R17 tyres.

■ The M leather steering wheel with multifunction buttons and interior trim finishers in Aluminium Hexagon with accent in Pearl Chrome combine sporty functionality with dynamic ambience.

M Sport package exterior equipment:

- M Aerodynamics package with front apron, side skirts and rear apron with diffuser insert in Dark Shadow metallic
- BMW kidney grille with vertical slats, with front sides in Black high-gloss ■ LED fog lights*
- □ 17" M light alloy wheels Double-spoke style 483 M, alternatively 18" M light alloy wheels Double-spoke style 486 M
- M Sport suspension*, lowered, alternatively standard suspension

The port for external charging of the high-voltage battery is located behind a flap on the vehicle's front side panel on the left. The charging port is protected from the elements by a special seal. The LED light ring around the port indicates the vehicle's current charge status.

BMW eDrive technology combines the best of both worlds: purely electric, locally emission-free driving (e.g. in urban areas), along with a dynamic driving performance and a great possible range. Intelligent energy management controls the interaction between the electric motor and the combustion engine, deploying both with impressive efficiency.

☐ When open, the Panorama glass roof provides a great deal of fresh air. Closed, it creates a bright, light-flooded atmosphere in the interior. It opens and closes completely automatically at the push of a button, or via the remote control, and is equipped with slide and lift functions, a roller sunblind and wind deflector.

☐ The Adaptive LED headlights* include low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective Beam, cornering lights, daytime running lights and Adaptive headlights with variable light control for excellent illumination of the road ahead and better visibility in the dark.

☐ LED fog lights* increase short-range visibility in fog or precipitation, improving safety. The colour of the light they emit is remarkably similar to daylight. They also consume little energy and have a very long lifespan. The fog lights give the front of the car a high-tech, modern appearance.

☐ The Roof rails in Aluminium satinated provide the base for a multifunctional BMW roof rack unit.

☐ The Chrome Line Exterior features attractive accents with elements in highly polished aluminium and contrasts in black matt.

☐ The Comfort access system allows passengers to enter the car via the front doors and to open the tailgate without having to actively use the key. The key must simply be nearby, in the driver's trouser pocket for example. To unlock the doors, it is only necessary to touch the handles or the tailgate button.

☐ The third row of seats¹, with two individually foldable and forward-

additional passengers.

■ Standard equipment □ Optional equipment

■ The rear seat bench has three full seats. The backrests can be folded in a 40:20:40 ratio.

facing seats, offer room for two

☐ The 8-speed Steptronic Sport transmission* offers incredibly sporty gear changes. Whether automatic or manual using gearshift paddles or gear lever.

☐ Thanks to its tightly spaced gear ratios and fast engine speed transitions, the 8-speed Steptronic transmission* ensures greater driving comfort, smoother gearshifts and low fuel consumption.

☐ The 7-speed Steptronic transmission* with double clutch technology offers particularly smooth gearshifts and outstanding driving comfort, all with low fuel consumption.

■ The Storage compartment package offers a multitude of additional storage options in the interior and luggage compartment.

☐ The Luggage-compartment separating net behind the second row of seats prevents objects from falling forwards into the passenger area.

☐ The rear seat bench² has three full seats. The backrests can be folded down in a 40:20:40 ratio, or they can be positioned at either of six angles. Also on board: three height-adjustable headrests, three-point seat belts for all seats and an ISOFIX child seat attachment for the outer seats.

^{*}The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your

¹ Only available for BMW 2 Series Gran Tourer. ² Standard for BMW 2 Series Gran Tourer.

☐ The full-colour BMW Head-Up Display^{1,*} projects relevant driving information onto a panel in the driver's field of vision, which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info incl. no-overtaking indicator and telephone and entertainment lists, among other things are displayed, depending on the equipment.

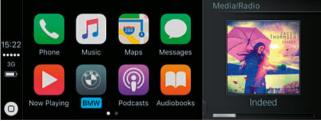

☐ The Automatic air conditioning with two-zone control* and automatic temperature control features separate controls for the driver and front passenger. It also includes Automatic Air Recirculation (AAR), a Microactivated carbon particulate filter, a fogging and solar sensor, as well as rear air vents.

☐ The Harman Kardon 7.1 Surround Sound system, with twelve speakers optimally designed to suit the interior's sound characteristics, guarantees an exceptional music experience. Tweeters and subwoofers delivera brilliant, powerful range of sound. Elegant aluminium loudspeaker fronts feature "Harman/Kardon" lettering for a high-class look.

☐ Telephony with wireless charging^{2,*} includes a wireless charging dock and an additional USB port. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected simultaneously via Bluetooth. In addition, there is Bluetooth Office.

☐ Why go without the features of your iPhone in your BMW when you can continue operating it as usual? The preparation for Apple CarPlay^{®3,*} gives you remote access to telephony as well as apps like iMessage, WhatsApp, Tuneln, Spotify and Apple Music. You can also use the voice button on the steering wheel to access Siri, Apple's voice assistant.

polarised surgiasses. The Acad content forlown with depend on the equipment of the content to be displayed.

² Supports inductive charging for Qi-compatible mobile phones. Special charging cases are available from Original BMW Accessories for selected smartphones that do not support the QI standard for inductive charging.

⁴ Function may be limited in darkness, fog or bright glare.

■ Standard equipment □ Optional equipment

☐ Navigation Plus* features a BMW Head-Up Display¹, an iDrive Controller, a built-in 8.8" touch display and an instrument cluster with high-resolution 5.7" TFT display. The system is operated intuitively using either the iDrive Controller, the direct menu control buttons and six or eight functional bookmarks, Intelligent Voice Control or the touchscreen with interactive files.

☐ The Rear view camera* enables improved orientation when reversing at speeds below 15 km/h, for example when parking. It shows the area behind the car on the Control Display. Interactive track lines for measuring distance and turning circles assist you when manoeuvring. Obstacles are marked in colour.

☐ The Lane Departure Warning* detects lane markings and alerts the driver before an unintentional lane change at speeds above around 70 km/h by means of vibrations in the steering wheel. If the indicator is activated, meaning that a change of lane is intended, no warning is given.

☐ The Driving Assistant Plus^{4,*} equipment provides a clear improvement in safety and comfort. It includes the Approach control warning and Person warning with light city braking function, Lane Departure Warning, the High-beam assistant, the Speed Limit Info, camera-based Cruise control with Stop&Go function as well as the Traffic jam assistant.

☐ The Parking Assistant^{5,*} makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over steering, while you are responsible for selecting the correct gear, as well as pressing the accelerator and brake.

¹ The information in the BMW Head-Up Display is not fully visible when viewed through polarised sunglasses. The exact content shown will depend on the equipment options chosen. Further optional equipment is required for content to be displayed.

³ Apple CarPlay® compatibility and supported functions depend on the model year and the software installed on the iPhone®. When the Apple CarPlay® preparation is in use, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for further data processing.

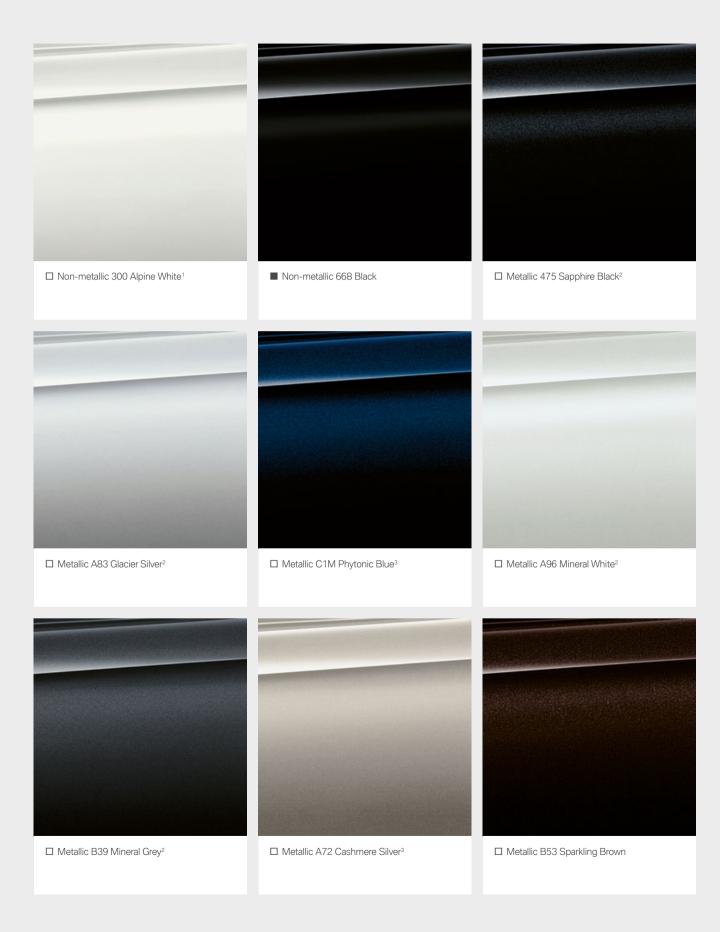

^{*}The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

☐ 18" light alloy wheels Star-spoke style 512 Orbit Grey, 8J x 18, 225/45 R18 tyres.

■ 16" light alloy wheels V-spoke style 471* in Reflex Silver, wheel size 7J x 16, with 205/60 R16

■ 17" M light alloy wheels Double-spoke style 483 M^{1,*}. 7.5J x 17, 205/55 R17 tyres.

☐ 16" light alloy wheels turbine styling 472*, BMW EfficientDynamics, Orbit Grey, gloss-lathed, wheel size 7J x 16, 205/60 R16 tyres.

☐ 17" light alloy wheels Double-spoke style 385 Reflex Silver, wheel size 7.5J x 17 with 205/55 R17 tyres.

☐ 17" light alloy wheels V-spoke style 479 in Reflex Silver, wheel size 7.5J x 17 with 205/55 R17

☐ 17" light alloy wheels Multispoke style 546, wheel size 7.5J x 17 with 205/55 R17 tyres.

☐ 18" light alloy wheels Y-spoke style 484 Ferric Grey, glosslathed, wheel size 8J x 18 with 225/45 R18 tyres.

☐ 18" M light alloy wheels Double-spoke style 486 M¹ in Ferric Grey, bright turned, wheel size 8J x 18 with 225/45 R18 tyres.

ORIGINAL BMW ACCESSORIES.

■ Standard equipment □ Optional equipment ○ Accessories

Equipment 40 | 41

O This contemporary roof box in Black with titanium silver side trims has a 420-litre capacity and fits all BMW roof rack systems. It can be opened from both sides and features triple central locking on each side which makes it easy to load and provides anti-theft locking.

O The sporty 19" M light alloy wheels Double-spoke style 766 M are designed in Bicolour Jet Black matt, gloss-lathed, weightoptimised and feature the BMW M logo. TPMS summer complete wheel set with run-flat tyres, wheel size 8J x 19 with tyre size 225/40 R18 93Y RSC.

O Secure base for up to five pairs of skis or four snowboards and makes loading easier especially with higher vehicles.

O The universal holder is adjustable in terms of size and it is snapped into position into the basic carrier of the Travel & Comfort System that is available separately. It provides a secure hold for a wide range of Apple and Samsung tablets from 7" to 11" with Travel & Comfort tablet safety case. It can be rotated through 360°, tilted and fixed in the desired position.

O The durable, anti-slip, waterresistant fitted mat with raised borders on all sides protects the luggage compartment from dirt and moisture.

O The perfectly fitted, all-weather floor mats with a raised border and elegant design protect the front footwell against moisture and dirt.

O The foldable Compact rear bike rack is light but sturdy and can carry up to 60 kg. It can be quickly and securely mounted on the tow ball and transport up to two bicycles or e-bikes. When folded up, it can be stored in the luggage compartment tray, safe from spray and protected in the event of a collision.

Figures in [] are for vehicles with Steptronic transmission.

¹ The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90% full tank and a driver weight of 75 kg.

The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90% full tank and a driver weight of 75 kg. Optional equipment may affect the weight of the vehicle, the payload and the top speed if the selected equipment has an impact on the vehicle's aerodynamics.
 The actual total weight of the trailer must not exceed the maximum permitted trailer load, taking into account the maximum tow bar download.
 Range depends on various factors, in particular: individual driving style, route characteristics, outside temperature, heating/air conditioning, pre-conditioning.
 Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. BMW recommends RON 95 super unleaded petrol.
 The data for fuel consumption, CO₂ emissions and energy consumption are determined in accordance with the measurements processes as defined by European Regulation (EU) 2007/715 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. [For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO, emissions.]

Description on the local electricity infrastructure. Charging time corresponds to an 80% charge of maximum capacity.

Provisional figures; any missing figures were unavailable at the time of publication.

BMW 220i ACTIVE TOURER WITH SPORT LINE:

BMW TwinPower Turbo 4-cylinder petrol engine, 141 kW (192 hp), 18" light alloy wheels Star-spoke style 512, exterior colour in Sunset orange metallic, seats in Cloth/Sensatec combination Anthracite with orange accent, interior trim finishers in Aluminium, finely brushed lengthwise with highlight trim finishers in Pearl Chrome.

BMW 220d xDRIVE GRAN TOURER WITH M SPORT PACKAGE:

BMW TwinPower Turbo 4-cylinder diesel engine, 140 kW (190 hp), 18" M light alloy wheels Double-spoke style 486 M, exterior colour in Misano Blue metallic, seats in leather 'Dakota' Black with highlight in Blue, interior trim finishers in Aluminium Hexagon with highlight trim finishers in Pearl Chrome.

The models illustrated in this medium show the equipment and configuration options (standard and optional) for vehicles produced by BMW AG for the German market. Alterations in standard and optional equipment and the configurations available for the different models, as described in this medium, may occur after 03/18/2020, the editorial deadline for this medium, or according to the specific requirements of other markets. Your local BMW Partner is available to provide further details. Subject to change in design and equipment.

Of course, each vehicle is designed for economical recycling after its long-running life. You can find more information regarding your end-of-life vehicle on our website **www.bmw.de/recycling**.
